SKILLS

- **Languages**: C++, Java, C,
- **Tools/Platforms**: Jupyter Notebook, Google Colab, Excel, Power BI, Git, GitHub
- **CS Fundamentals:** Data Structures & Algorithms, OOP, DBMS, OS, Machine Learning
- **Soft skills:** Problem-Solving, Team Player, Adaptability

PROJECT

AI Based Investment Rebalancer: April 2025 - May 2025

- Created an AI system that analyzes portfolios and suggests rebalancing using risk, diversification, and trend analysis.
- Built a Chrome extension to capture portfolio screenshots or accept API-based data.
- Parsed data using Pandas and generated intelligent recommendations.
- Displayed outputs in a well-structured UI using tables and bullet-point insights.
- Helped users understand sector allocations clearly and make better investment decisions.

Face Recognition Vault: March 2025 - April 2025

- Enginered a secure vault access system using facial authentication.
- Implemented AES-GCM encryption to ensure secure file storage and biometric-verified access.
- Developed a clean and user-friendly interface using Flask for registration, login, and vault access.
- Used SQLite for storing facial encodings and access logs securely.
- Ensured privacy, OS-level security integration, and smooth user experience.

Training

- **Competitive Programming Training | AlgoTutor** July 2025 - August 2025
  Successfully completed 28 days training in Competitive Programming
  Practiced Recursion, Dynamic Programming, Graph and Optimization Techniques

CERTIFICATES

- Privacy and Security in Online Social Media | NPTEL — April 2025
- Packet Switching Networks and Algorithms | UniversityofColorado(Coursera) — October 2024
- TCP/IP Advanced Topics | University of Colorado (Coursera) — October 2024
- Digital System: From Logic Gates to Processors | UAB(Coursera) — September 2024
- C Programming: Basics to Beyond | CSEPathshala — March 2024
- Responsive Web Design Certification | FreeCodeCamp — October 2023

ACHIEVEMENTS

- **Solved 250+ questions** July 2025-Present
  Used optimization techniques for better time and space complexity
  Applied learnings from Competitive Programming training
- **Ranked 3rd in Web Dev hackathon** August 2024
  Developed real time speech to text application for helping deaf people

EDUCATION

- **Lovely Professional University** Punjab, India
  Bachelor of Technology - ComputerScienceandEngineering **CGPA:8.45** August 2023 - Present
- **Vidyavati Public Central School** Bhind, Madhya Pradesh
  Class 12 **Percentage: 94.6** April 2021 - March 2022
- **Vidyavati Public Central School** Bhind, Madhya Pradesh
  Class 10 **Percentage: 94.4** April 2019 - March 2020
